

# Invite to Pay

This guide will show you how to send a text to customers to invite them to pay remotely.

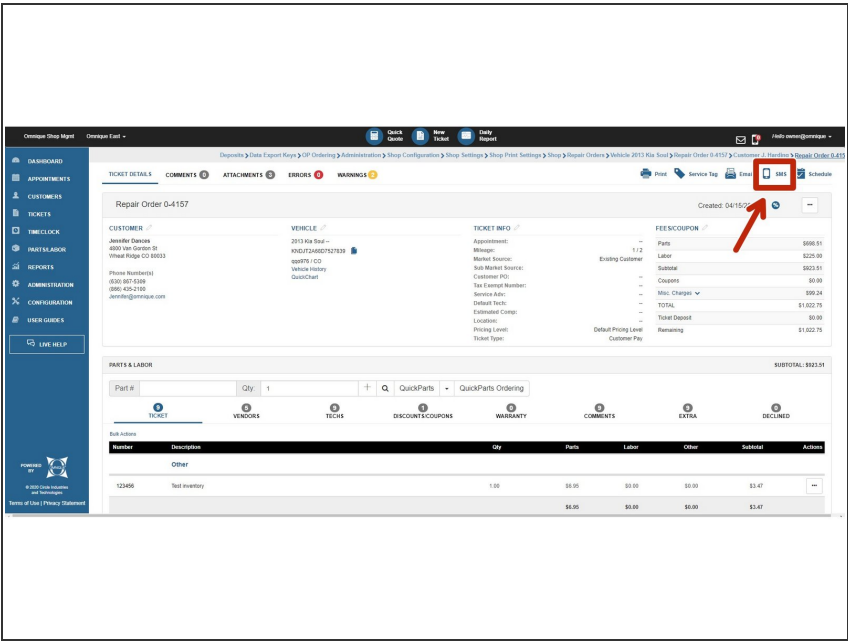

Written By: Dylan Berichon

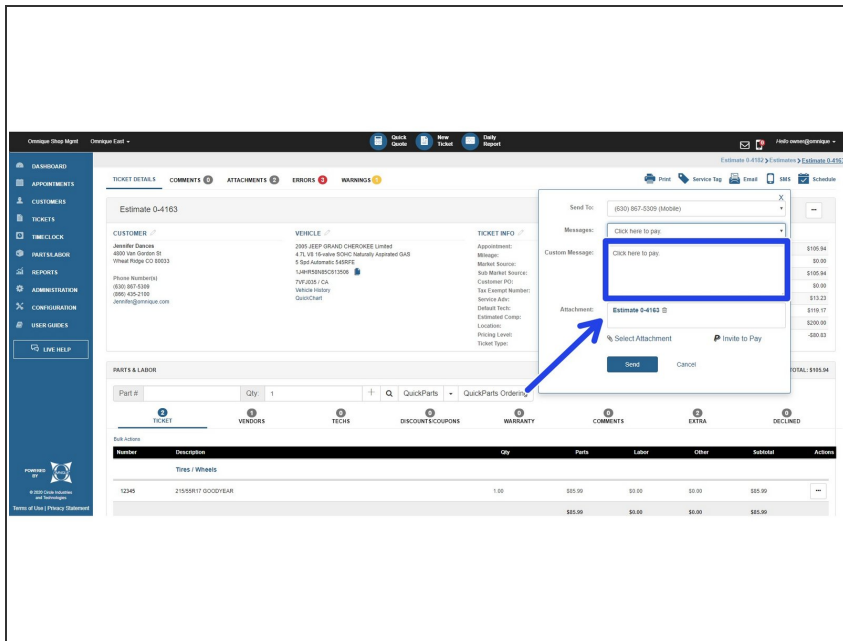

## Invite to Pay

# Step 1 — Invite to Pay

- Within the Estimate or RO, click on the **SMS** icon.

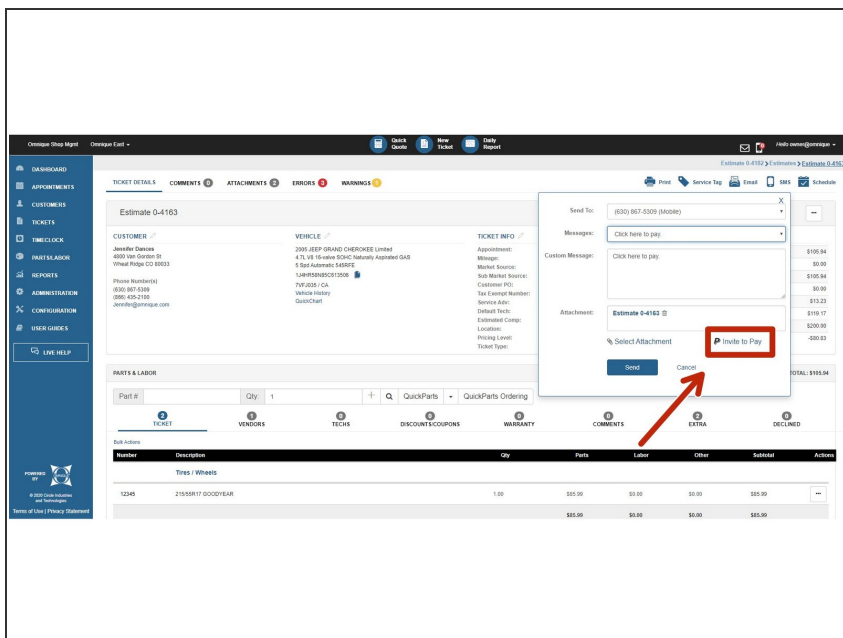

## Step 2

- Type in whatever message you want to send to the customer to alert them that they can pay. In this example, "Click here to pay" has been added.

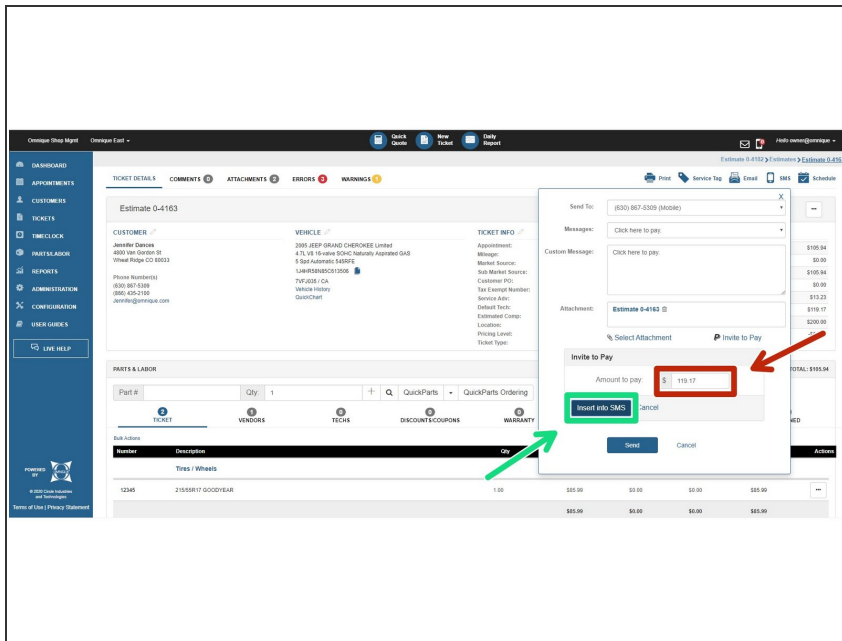

**i** To speed this process up, canned SMS messages can be added to the drop down list so users won't have to type a message manually each time. Click [here](#) to learn more.

## Step 3

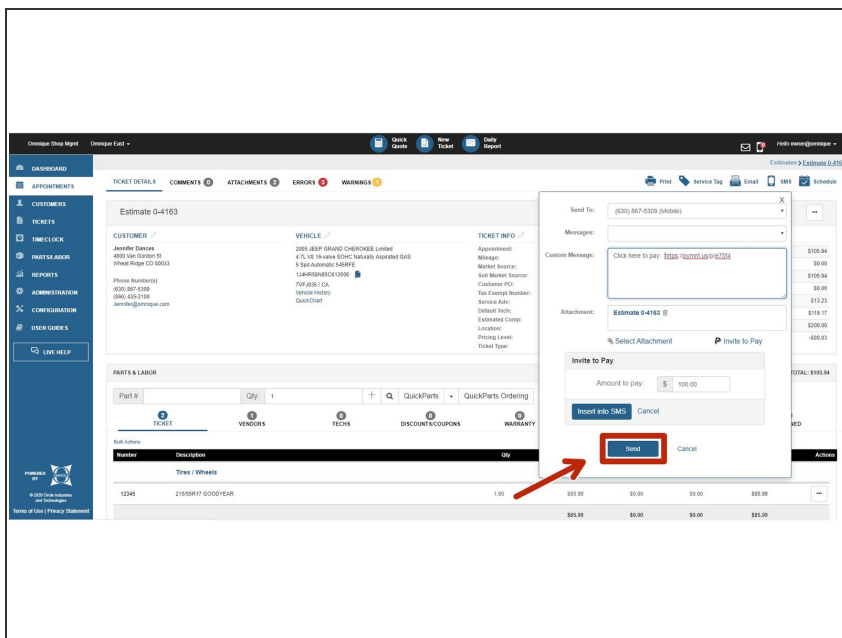

- Click on "Invite to Pay"

## Step 4

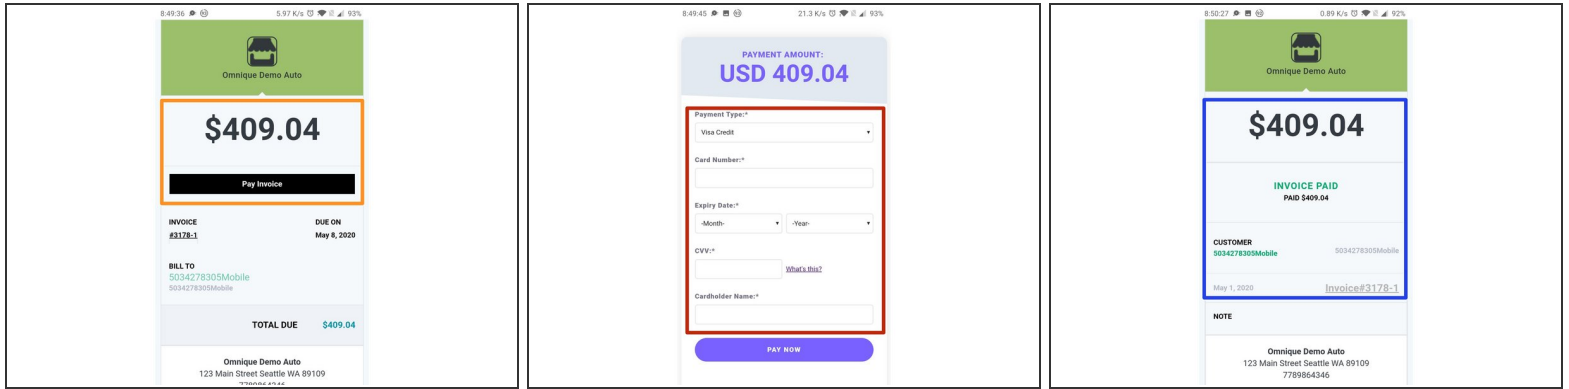

- Type in the amount you want the customer to pay.
- i Any amount can be entered. It can be a partial payment (deposit) or a full payment.
- Click on **"Insert into SMS"**.

## Step 5

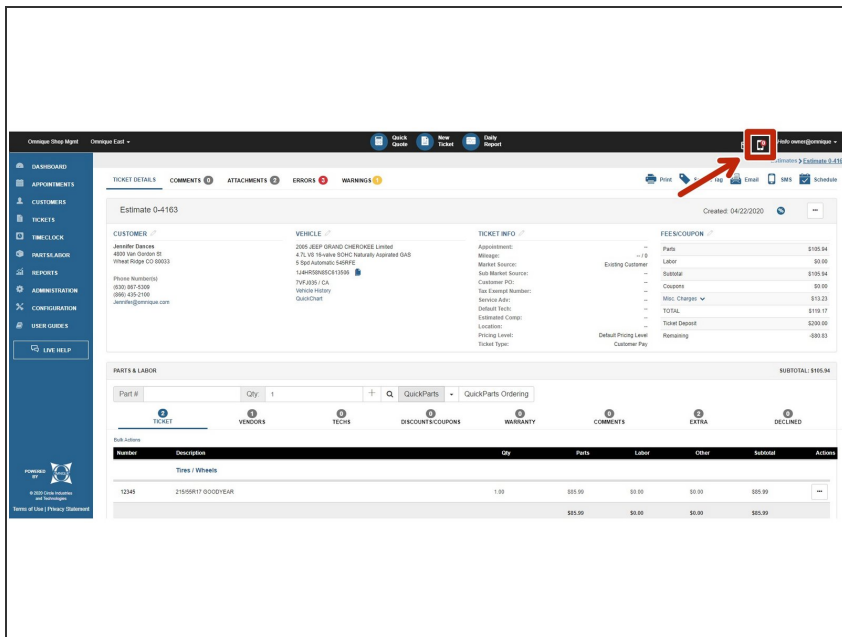

- Click "Send" to send the message to the customer.

## Step 6

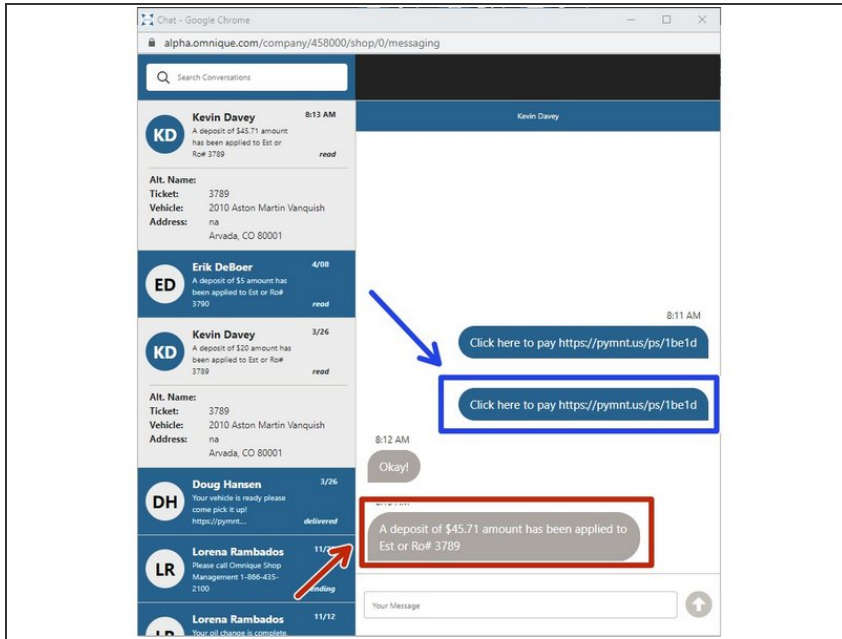

- Once the customer clicks on the link on their mobile device, they will be asked to pay. This is what they will see.
- The customer will be prompted to enter their Credit Card information.
- Once the customer pays, they will see the confirmation. Your shop will also receive a notification via SMS.

## Step 7

- Once a customer responds, you will be alerted. View all SMS conversations including unread messages by clicking on this **Alerts** icon.

## Step 8

- This is the message as the Customer will see it.
- Once the customer pays, Omnique will send a confirmation message.
